## PROFESSIONAL SUMMARY

Experienced full stack developer skilled in developing robust, scalable web applications. Strong problem-solving and collaboration abilities. Committed to delivering high-quality, user interfaces through efficient development practices. Proven ability to design and implement scalable and maintainable systems, incorporating auto-scaling solutions, load balancing, and caching mechanisms. Experienced in working with both SQL and NoSQL databases. Proficient in application deployment. Deep expertise in Node.js, React.js, and cloud services like AWS.

## EXPERIENCE

### Full Stack Developer - Part Time | [MarketPlace Monitor](#) 10/2023 - Present Vancouver, BC.

- Designed and developed a comprehensive web app to monitor Marketplaces.
- Architected and implemented a robust system for horizontal and vertical scaling.
- Led a team to design the system architecture, implement code, and maintain the project.
- Incorporated auto-scaling, load balancing, and caching solutions to ensure optimal performance and scalability.
- Utilized Docker and YAML to deploy applications efficiently to AWS.

### Junior Full Stack Developer - Full Time | [MeaningfulWork](#) 06/2022 - 10/2023 Vancouver, BC.

- Contributed to the development of various features using the latest technologies such as NodeJs and ReactJs/NextJs.
- Worked with a team of developers to deliver high-quality web solutions within strict timelines.
- Collaborated with designers and project managers to ensure seamless integration of front-end and back-end functionalities.
- Implemented Agile workflow processes and best practices to improve team productivity and outcomes.

### Full Stack Developer - Internship | [Yusra Community Center](#) 09/2018 - 01/2021 Istanbul, Turkey.

- Developed various web applications and content management systems using technologies such as ReactJs, Redux, NodeJs, MongoDB, Docker, Express, and MySQL.
- Built a website with APIs and a robust CMS.
- Gained extensive experience in front-end development, back-end implementation, and database management

## TECHNOLOGY EXPERTISE

JavaScript, MYSQL, React Native, ReactJs, NextJs, Redux, NodeJs, Redis, TypeScript, Docker, AWS, Git, Microservices, socketio, Rest API, Puppeteer, MUI, Unit Testing, nginx, MongoDB, ExpressJS, PHP, Python, Figma.

## EDUCATION - Self-Taught - Online Bootcamps

- Data Engineering, Data Analysis, Machine Learning (AI) Udemy - June 2024 - Present
- Cloud Based Services and DevOps (AWS, GCP) Certifications - Udemy
- Algorithms, Data Structures, and Computer Science Fundamentals - Udemy
- SQL and NoSQL Database Design Certifications - Udemy
- NodeJS Backend Development Certifications - Udacity
- ReactJS & React Native, Front-end design and front-end frameworks - Udacity

## Volunteering

Led the coordination of Turkey-Syria earthquake relief efforts, aiding over 1,000 displaced individuals. Provided critical assistance to displaced individuals, helping and mentoring refugees until they secured jobs and relocated to safe places. Trained as a Mental Health facilitator to offer emotional support and effectively served as a translator to bridge communication gaps.

## LANGUAGES

English, Arabic and Turkish
